- Association of Former Students Scholarship

Current employment:

I am currently interning at the Federal Reserve Bank of St. Louis for the summer of 2018. During the school year, I work as a teaching assistant for Principles of Microeconomics as well as researching with Jonathan Meer.

Family ties to Texas A&M:

My mother, father, and great-uncle attended Texas A&M University.

I chose to attend Texas A&M because...

I feel like Texas A&M is an awesome culture fit. I knew nothing about the economics department before arriving in Aggieland, but it has consistently proved a challenging and rewarding academic environment

My favorite things to do on campus are...

I love to go walking with friends.

When I have free time, I like...

To run, to do yoga, to travel, to listen to podcasts, and to binge watch Ally McBeal

The craziest thing I've done is...

Serving as a Fish Camp counselor was a crazy experience. It allowed me befriend people from all types of backgrounds that I would have never otherwise met.

My favorite place to study is...

The Allen Building.

My favorite Economics professor is...

Dr. Jonathan Meer

If I could share an afternoon with anyone, I would love to share it with...

Russ Roberts

If I knew I could not fail, I would...

I would travel to every country in the world.

If money was not a consideration, I would love to...

Travel to every continent in the world.

What is your passion and how are you committed to pursuing it?

I want to conduct economic research relevant to labor and education policy. I plan to pursue a pre-doctoral research position before attending graduate school.

After graduation, I plan to...

Travel to Europe.

The one Texas A&M experience I will always remember is...

I will always remember attending my first football game.
